

A Supply Management Solution Built for Home Health Agencies

Control your ordering process, supply spend, and ultimately patient outcomes

Pillar 1 — Supply Management

Better Manage your Supply Costs

- ✓ **Ordering Flexibility**
Stockroom, trunk stock, and home delivery
- ✓ **Instant Visibility to Status and Spend**
Details at the order, product, and patient level
- ✓ **100% Brand Access**
Competitive pricing with access to over 20k SKUs
- ✓ **Proven Distribution**
A 30+ year track record of results through Mercy Supply

Pillar 2 — Commercial Billing for Wound Care

Recover wound care revenue you're missing

- ✓ **Third-party commercial billing**
We handle the specialized workflow, end to end
- ✓ **Capture revenue from commercial patients**
Absorbed costs become reimbursed revenue
- ✓ **Cleaner Orders, less headaches**
Purpose-built workflows streamlines work with biller
- ✓ **No Added Burden on Your Team**
Order data is auto extracted from your EMR PDF orders

Pillar 3 — Custom Formulary (Built for Clinicians)

Your formulary, your call. Most distributors push you toward their house-brand — low-cost knock-offs that clinicians may not trust and patients notice. Archangel lets you build a formulary that exactly suits your agency: all the top brands your clinicians want, the products your patients need, the clinical standards you refuse to compromise on.

Clinical autonomy

Your clinicians choose the products they trust — no forced substitutions to house brands.

Better outcomes

The right products heal faster. Fewer complications, fewer readmissions, stronger quality scores.

Clinician retention

Clinicians stay when they're supported. A formulary that respects their expertise is a retention tool.

Pillar 4 — Ease of Doing Business

The part most vendors miss. We've built Archangel around the way home health actually runs — simple workflows, real humans on the phone, and a partnership model that supports clinicians and leadership instead of adding to their plate.

Streamline operations

A user-friendly platform that removes friction, not another system to wrestle with.

Strengthen partnerships

Relationship-focused and expertise-backed — so referral sources trust what you deliver.

Reduce stress for staff

Fewer vendor headaches, fewer billing puzzles — less anxiety for all staff.

- ▶ **One platform. Four ways we show up differently.** Let's walk through what this could look like with your actual numbers — and your clinicians' actual wish list.
